

Survey seeks feedback on local business climate – Detroit News, 4A, 11/30/10

The county's **Department of Planning & Economic Development** is seeking feedback from businesses to improve the business climate and identify opportunities for job growth. Nearly 500 business owners responded to each of the first two surveys, and officials hope to surpass that total with the third. The survey will be online through Dec. 20 at www.surveymonkey.com/s/MacombClimateSurvey. The final report is to be available by the end of January.
